Do not mail in, or otherwise have sent to us or to your program, a paper copy of your transcript or academic record as we are unable to accommodate such documents and if received, they will be discarded.
Do not upload a "place holder" page in lieu of a transcript. Doing so will only delay the review of your application.

If you are uploading a copy of your academic record from your institutions SIS portal be certain that it contains the name of the institution, course names and grades and any academic comments that would be part of an official transcript. If not, then you need to upload of copy of your official transcript.

Uploading a Transcript

You must “upload” a scanned copy of your transcript or academic record to your online application prior to submitting the application. Please refer to the details below before proceeding. Do not mail in or otherwise have sent to us, a copy of a transcript or academic record as we are unable to accommodate those documents and they will be discarded.

Uploading a scanned copy of your transcript or academic record is required as all programs now review applications online. In addition it also ensures that a record of your academic progress is included with your submitted application. It eliminates the need to have a transcript mailed to us during the initial processing and review of your application and precludes any delays resulting from the non receipt of a transcript.

**Uploading a scanned copy of your transcript or academic record**

Below are some suggestions on how to proceed with uploading a transcript.

- Please scan a copy of a transcript that you may have and that is current, at the lowest dpi that results in a legible document (we recommend to use under 200 dpi whenever possible).
- You must ensure that the institution name and other identifying marks are not missed during the scanning process and that your scanned copy is clearly legible and can print on letter size paper (8 ½" x 11")
- You will want to ensure that you also include the transcript legend (back page in most cases).
- **You will want to be certain that your document is saved as a PDF file.**
- You will want to ensure that its size is less than 25000kb (25mb). Scanning in “gray scale” or black and white may produce the best results.
- If the scanned file is too large then you may want to make a photocopy first (experiment with different settings until you find one that results in the smallest file size) then scan the photocopy.
- Do not be concerned if "Void" appears on your scanned copy as long as your coursework and grades are legible.
- Please remember, if you cannot read your uploaded document the faculty will not be able to read it either.
- You may upload an institutional web based transcript/academic record.
