

To apply for a GPE Fellow position: Submit an updated resume and cover letter to gsasprofessionaldevelopment@yale.edu with the subject header “[Name of Fellow position]” by June 25 at 11:59 p.m.

Transportation Data Fellow—Office of Sustainability

Mentor: Lindsay Crum, Associate Director, Office of Sustainability

Fellow Title: Transportation Data Fellow—Office of Sustainability

Organization Name: Office of Sustainability

Organization Website: sustainability.yale.edu

Organization Description:

The Office of Sustainability was founded in 2005, coinciding with the unification and augmentation of existing university sustainability endeavors. Since then Yale has clarified its institutional vision for sustainability and codified its commitment to realizing that vision: We envision a Yale where sustainability is seamlessly integrated into the scholarship and operations of the university, contributing to its social, environmental, and financial excellence and positioning Yale as a local and global leader.

GPE Fellow Responsibilities:

The Yale Transportation Survey was first created and distributed in 2007 to provide a baseline assessment of how the university population commutes to and from campus. The survey covers topics ranging from transportation behaviors and patterns to commuter satisfaction and incentives. Now conducted biannually, the survey provides the University with data to measure progress against its sustainability goals as well as to inform decision-making on transportation-related programs and initiatives.

Responsibilities of the Transportation Data Fellow will include updating and distributing the survey, data analysis, and report writing.

Desired GPE Fellow Qualifications:

The ideal candidate for this position is a self-starter with the ability to work independently while also providing frequent updates on progress. The ideal candidate is also experienced with data analysis and survey science; interested in sustainable transportation; flexible; open to collaborative brainstorming; organized; a clear communicator and skilled writer; and attentive to deadlines.

GPE Fellow Learning Objectives:

The Fellow will develop skills in survey development, data analysis, and communication; gain increased understanding around sustainability initiatives and processes at Yale; and actively contribute to creating a positive impact on sustainability at Yale.
