Organization Description:
Tsai CITY's mission is to inspire students from diverse backgrounds and disciplines to seek innovative ways to solve real-world problems. We serve students from across Yale's campus through programs, funding, and mentoring. We employ a co-curricular and process-oriented approach to our programming, which is intentionally broad since there are many possible pathways to engage in innovative thinking.

In a student population it may also include first generation low income (FGLI) students and students with disciplines underrepresented in Tsai CITY's existing work.

The Strategic Initiatives Fellow will incorporate an intersectional approach regarding this under-represented population and coordinate initiatives, events, and trainings helpful to meaningfully serving this population of entrepreneurs and innovators.

The success of this role will be determined by the successful implementation of agreed upon programs and initiatives for the 2026-2027 academic year.
