Welcome and Intro:

Ingrid Russell
Ingrid Russell is Professor and Interim Chair of the Department of Computing Sciences at the University of Hartford and has been a consultant on several industry and higher education projects. Her research interests are in the areas of machine learning, data mining, and computer science education. She is the recipient of several honors and awards and her research has been funded by NSF, NASA, and the Connecticut Space Grant Consortium. Ingrid has served in editorial capacities for numerous journal special issues and computer science conference proceedings and has chaired several conferences in her areas of research. She has served in several board leadership positions of national and regional computing organizations. She serves on the Yale Graduate School Alumni Association Board.

Keynote: Louise Bernard
Louise Bernard is the founding Director of the Museum of the Obama Presidential Center. She was formerly Director of Exhibitions at the New York Public Library. As a Senior Content Developer and Interpretive Planner in the New York office of the museum design firm Ralph Appelbaum Associates, she worked on the design team that developed the National Museum of African American History and Culture, Smithsonian Institution, along with other international projects. She previously served as Curator of Prose and Drama for the Yale Collection of American Literature at the Beinecke Rare Book and Manuscript Library at Yale, and as Assistant Professor of English at Georgetown University. She received a BA Hons in Drama from the University of Manchester, an MA in Theatre History and an MA in English Literature from Indiana University, Bloomington, and a Ph.D. in African American Studies and American Studies from Yale. Her current research engages with the literary archive, material culture, museology, public history, and interpretive planning and design. She is a scholarly advisor to the International African American Museum in Charleston, SC, and a Board member of the Yale Graduate School Alumni Association.

Session 1:

Moderator: Thalyana Stathis
Thalyana Stathis Ph.D. (’14, Molecular, Cellular, and Developmental Biology), is the Manager of the Office of Career and Professional Development at Memorial Sloan Kettering Cancer Center in New York, NY. In this role, she utilizes her background in research and higher education to empower postdocs and Ph.D. students to successfully navigate their career paths. She coaches scientists individually in each stage of their career planning, and she leads programming for career exploration and professional development skills to complement training at the bench, such as effective science communication for various audiences. She was previously Assistant Dean of Academic Affairs at Columbia University's Graduate School of Arts and Sciences. She was also a scientific journal editor at BioMed Central, a part of SpringerNature, where she helped organize events for students and early career researchers to learn about publishing opportunities. While a Ph.D. student at Yale, she was actively involved in career exploration groups.
Michael Zimm
After he received his Ph.D. in Classics at Yale, Michael joined the tech startup world. He was first hired as a creative strategist at a digital marketing agency where he eventually became the agency’s digital media manager and built out their digital media practice. He’s currently the director of marketing at Kris-Tech Wire, a national copper wire manufacturer. Additionally, Michael writes articles on higher education that have appeared in the Wall Street Journal, the Chronicle of Higher Education, Inside Higher Ed, Quartz, and Venture Beat.

Masa Gong
Masa Gong is an experienced Coach, Coach Supervisor, Mediator, and Organizational Development Consultant based in New York City with 20-plus years of experience in high tech media and sales organizations. Masa speaks in various forums about coaching, career, diversity, and culture. She is a proud Yalie ’96.

Session 2A: Careers in Finance
Moderator: Petter Kolm (2000 Ph.D., Mathematics)
Before his role as a Professor at the NYU Courant, Petter worked at Goldman Sachs where his responsibilities included developing investment strategies. Petter has co-authored many articles and books on quantitative finance, serves on several editorial boards for academic journals, professional associations, and company advisory boards. He holds a Ph.D. in Mathematics from Yale, an M.Phil. in Applied Mathematics from the Royal Institute of Technology, and an M.S. in Mathematics from ETH Zurich.

Panelists:
Jeff Feldman (Ph.D. Material Science, Univ. of Connecticut ‘88 & SOM ‘95)
Jeffrey Feldman has over thirty years’ experience as a professional opportunist having been involved in many investment and operating positions. He has been a technology start-up entrepreneur and venture capital investor, involved in the acquisition/operation of commercial businesses, a developer/operator of residential real estate, a founding member of three venture capital funds and a turnaround/special situation investor & advisor. Dr. Feldman earned his MBA from the Yale School of Management where he concentrated on Operations Science and Finance. He received his BS in Organic Chemistry from the University of Connecticut and a Ph.D. in Polymer Science from the Institute of Materials Science located at the University of Connecticut. His thesis topic focused on applied particle physics for neutron dosimeters and novel semi-interpenetrating networks for biomedical applications. After earning his Ph.D., he completed a post-doctoral study at Montedison’s Research Center in Novara, Italy. He is married with three daughters.

Carmen Manoyan (Yale SOM ‘98)
Carmen Manoyan has over 20 years of experience in credit analysis, having worked at a number of firms on Wall Street. She is currently a buy-side analyst managing a $7bn bond portfolio comprised of sovereign and financial institutions credits at Aflac. Carmen has an MBA from
Yale SOM, a Masters in Engineering Management from Dartmouth, and a Systems Engineer degree from Universidad Metropolitana, Venezuela.

Jorge Pedraza ('93 Ph.D., Comparative Literature), Consultant, JP Partners
Jorge’s first career was teaching at Williams College after receiving his Ph.D. in Comparative Literature from Yale with a dissertation on the 19th-century novel. He later changed careers and joined a website development start-up in NYC in business development. This led him to getting hired to run Le Monde Interactif, the digital arm of Le Monde, the French newspaper. Thereafter, he worked for Unison Site Management, a cell site lease acquisition start-up, for 13 years. Recently, Jorge has been a consultant in the wireless infrastructure industry. He also co-wrote a book, “The New Leader’s 100-Day Action Plan,” which has sold over 200,000 copies.

Session 2B - When Your Superpowers Include Working with Words

Barry Farber, Ph.D., Professor of Psychology, Teachers College Columbia University
After graduation (Yale Ph.D., 1978), Barry became faculty at Teachers College, Columbia University, where he’s been ever since. He served as Director of Clinical Training from 1990-2016, two stints as Department Chair, currently edits the *Journal of Clinical Psychology: In Session*, and maintains a small private practice of psychotherapy. He has published over 100 papers in professional journals and several books, the most recent being *Secrets and Lies in Psychotherapy*, the most read being *The Psychotherapy of Carl Rogers: Cases and Commentary*, and the most interesting being *Rock ‘n’ roll wisdom: What psychologically astute lyrics can teach about life and love*.

Carra Leah Hood, PhD, Associate Provost for Strategic Planning, Stockton University, and author
Since graduating from Yale with an MA in African Studies and a Ph.D. in Comparative Literature, I have had a number of academic jobs. I was a faculty member, earned tenure and promotion, and shortly after that, moved into administration where I learned that writing is critical to effective teamwork, collaboration, communication, and brainstorming. Matching words to intention and to recipient’s frame of reference, reading context, and expectations is both a joy of the writing life and the lesson my work reinforces every day.

Terra Ziporyn, PhD, Executive Director of Start School Later, and author
Terra Ziporyn Snider, Ph.D. (1980 BA, History, Biology) is a science writer and former associate editor at JAMA whose publications include *The New Harvard Guide to Women’s Health*, *Alternative Medicine for Dummies*, and *Nameless Diseases*. Co-founder and executive director of the nonprofit Start School Later, she earned a doctorate in the history of science and medicine from the University of Chicago. She is also the author of the novels, *The Bliss of Solitude* and *Time’s Fool*. 
Section 2C: Constructing Career Trajectories Outside Academia

Shanta Whitaker
Inspired by a desire to help and serve the most vulnerable, Dr. Shanta Whitaker left the laboratory bench and academia to pursue a career in public health. She obtained a Master of Public Health from the Johns Hopkins School of Public Health to understand how the social determinants of health affect minority populations. Currently, Shanta is a Vice President in the health policy group at Venn Strategies, a boutique government affairs firm in Washington, D.C. In this role, Dr. Whitaker works with her clients on a variety of areas ranging from 3rd party engagement to infant and maternal mortality. Dr. Whitaker also holds a bachelor’s degree in Biology from Virginia Union University and a Ph.D. in Microbiology from Yale University.

Alyssa Siefert:
Dr. Alyssa Siefert works as Clinical Data Analyst for Foresite Capital, a healthcare-focused private equity and venture capital firm, where she evaluates the technological feasibility of biotech innovations. She is also a prolific science writer whose ghostwritten articles have garnered hundreds of thousands of online views. Previously, Alyssa served as engineering director for the Yale Center for Biomedical Innovation and Technology (CBIT), where she advised project teams, ran large healthcare hackathons, and managed academic-industry partnerships. Alyssa earned her Ph.D. in Biomedical Engineering from Yale University while completing two years of MBA coursework at Yale School of Management, followed by postdoctoral training at Yale Systems Biology Institute. She holds a BS in Chemical and Biomedical Engineering, with a minor in Professional Writing, from Carnegie Mellon University.

Maggie Willer:
Maggie Willer, is a Senior Scientist with Jounce Therapeutics, and attended Northwestern University as an undergraduate, where she was fortunate to have the opportunity to spend multiple years as a researcher in a lab that studied the Hedgehog signaling pathway in fruit flies. After receiving her bachelor’s in 2012, she went directly to graduate school at Yale, intending to continue her scientific career in molecular signaling and developmental biology. However, after rotating in four different labs, she joined a newly started lab in the Cell Biology department, studying the function of membrane proteins found in the nucleus of the cell. She defended in January 2017, took a month off to recover from thesis writing and paper revisions, then started job hunting. After submitting many (many) applications, she was offered a position at a growing immuno-oncology company in Cambridge, MA called Jounce Therapeutics, where she started as a Scientist in the newly formed Preclinical Bioassay Development group in June 2017. Since then, her career has rapidly progressed, and she was promoted to Senior Scientist the following year. Currently, she leads a small team that helps potential new therapeutics transition into the
Session 3A: Using Data Science to Get Ahead in Consulting and Strategy

Sam Samdani
Dr. Sam G. Samdani is a senior expert at McKinsey & Company. He brings insights from a range of complex knowledge domains to create measurable impact through consulting services for the top management teams of many multinational chemical, pharmaceutical and petroleum companies as well as public and social sector organizations worldwide. Based in Summit, New Jersey, he enjoys the privilege of working with clients to accelerate their digital transformation by deploying advanced analytics and artificial intelligence tools to help solve their toughest problems faster and unlock opportunities by improving the design of their operating business models.

Session 3B: Careers in Tech and the New Digital Economy

Moderator: Jia Chen
Jia Chen is the Offering Leader of Blockchain solutions for Healthcare and Life Sciences at IBM’s Innovation and Solution Incubation team. She also serves on the IBM Academy of Technology Leadership Team which is a leadership team consisting of the top 100 technical leaders of the company. She previously led technical strategy at IBM Watson Health Innovation, with a focus on data and AI. Prior to that, Dr. Chen was the global leader of Watson Experience Centers at IBM, responsible for Watson AI client experiences across all of the Watson group. She has held leadership positions for Innovation and client engagement at IBM Corporate Headquarters as well as emerging markets. She led the identification, structuring and execution of first of a kind technology and business initiatives that provide innovative and transformative differentiation for IBM’s clients. She received her Ph.D. in physics from Yale University. She was named as one of the top 35 technology innovators under the age of 35 worldwide by MIT's Technology Review (TR35) in 2005, the Best Researcher of the Year by Small Times magazine in 2006 and one of the top 26 tech women innovators at IBM in 2015.

Natalie Singh
Natalie Singh is General Manager of Microsoft Enterprise Services for the US Education Operating Unit. In this role, Natalie leads a sales and delivery team focused on empowering K-12 and Higher Education customers to consume transformational solutions resulting in sustained YoY growth and expansion of Microsoft Services mind and market share. Natalie has spent 21 years in the technology industry, nine with Microsoft and 12 with Hewlett Packard. She is known as a visionary who has consistently taken an innovative approach to achieve objectives, managing and motivating people while focusing on customer satisfaction and financial results. Natalie is recognized as a progressive leader and has received numerous awards and commendations within her tenure at both HP and Microsoft, including the Microsoft Circle of Excellence Founders Award in 2015. A graduate of Yale University, where she earned a Bachelor of Science degree in Electrical Engineering. Natalie also has Business Administration certification from Georgetown University and Advanced Business Certifications from The
Wharton School of Business. She currently resides in Maryland and is actively involved in community service.

**Chris Bakes**
Chris Bakes (MC '14) works with Facebook Artificial Intelligence Research (FAIR), recruiting research scientists from CS Ph.D. programs globally. Prior to his work in the AI space, he worked as an admissions officer at Yale and Columbia Universities, managing recruitment in South America, and South and East Asia.

**Max Blum-Campo**
Max Blum-Campo is a Branfordian (BR '09) and Yale School of Music alum (MUS '11). At Yale, he studied music and choral conducting, and went on to direct and sing in choirs professionally in New York and Connecticut. He later moved into software engineering, attending the Recurse Center (formerly known as Hacker School) and working for two years at New York- and Stockholm-based startup Tictail. He now works for Google in their Cambridge, MA office, focusing on display ads' efficiency and infrastructure.

**Chao Teng**
Chao (MS’15, CS) is currently a senior engineer at Instagram. He has many years of experience in building large recommendation system and driving app user growth. He graduated from Yale with master’s degree in Computer Science in 2015.

**Session 3C: Fashioning Culture:**

**Moderator: Natasha Boas**
Natasha Boas (Ph.D. French 1996) is a San Francisco and Paris-based international independent contemporary curator specializing in the Modernist avant-garde, women artists, outsider artists and countercultural production. Prior to being independent for the last five years, she was chief curator and director of the Contemporary Museum of Craft and Folk Art in San Francisco. She has curated exhibitions for Beaubourg in Paris, SFMOMA and Grey Art Gallery, NYU among many other institutions. She is a visiting professor in the Art + Design program at UC Berkeley and she founded the California College of Art Curatorial Practice Program in 2004 where she continues to teach and advise. She is a Mellon Fellow and a recipient of several Andy Warhol Grants for the Arts and has contributed to numerous catalogues, books, and art reviews. She has a curatorial practice that includes advising on private and public art collections. In 2017, Boas authored the award-winning Facebook Artist in Residency book.

**Wednesday Martin**
Wednesday Martin is a feminist cultural critic (The New York Times, The Atlantic, The Hollywood Reporter) and #1 NYT bestselling author of *Primates of Park Avenue, UNTRUE*, and five other books. She has worked as a writer and social researcher in New York City for over two decades. An instant #1 *New York Times* bestseller, her memoir *Primates of Park Avenue* is a hilarious, touching, and insightful look into the exotic world of Manhattan motherhood. Wednesday has written on topics including gender, parenting and motherhood, popular culture, and female sexuality for *The New York Times, The Atlantic, The Daily*
Beast, and Harper’s Bazaar, among others. Her new book (2018) "Untrue: Why Nearly Everything We Believe About Women, Lust, and Infidelity Is Wrong and How the New Science Can Set Us Free" explores female sexuality in a world of #MeToo. Wednesday studied anthropology at the University of Michigan. She earned her doctorate in comparative literature and cultural studies, with a focus on anthropology, the history of anthropology and the history of psychoanalysis, from Yale. She taught cultural studies and literature at Yale and The New School for Social Research, and also worked in qualitative market research and advertising for several years, bringing anthropological insights about consumer markets to a number of Fortune 500 and Fortune 100 companies and major brands. Wednesday lives in New York City with her husband and their two sons.

Rhonda Garelick
Rhonda Garelick (BA, Comparative Literature, Ph.D., French) writes on fashion, politics, the arts, and popular culture. She is Professor of Design History and Theory at Parsons/New School University, and has taught at the University of Nebraska-Lincoln, Connecticut College, NYU, Princeton, and the CUNY Graduate Center. Rhonda is the author of three books, most recently, Mademoiselle: Coco Chanel and the Pulse of History. Her forthcoming book is devoted to fashion and presidential politics. Rhonda’s column, “Reading the Signs,” appears regularly in New York Magazine’s “The Cut,” and she writes often for other newspapers and magazines. She is a Guggenheim fellow and a Fellow of the New York Institute for the Humanities.

Leslie Camhi
For over two decades New York-based author Leslie Camhi’s first-person essays and writings on art, architecture, books, fashion, film, photography, travel, and women’s lives, have appeared in major U.S. publications, such as the New York Times and Vogue. She is the author of a biography of legendary art dealer Ileana Sonnabend published by the Museum of Modern Art in 2013 and has written numerous catalog essays on artists such as Yayoi Kusama and Lorna Simpson. She received her doctorate in Comparative Literature from Yale, where her dissertation focused on hysteria and the origins of psychoanalysis in France, and her scholarly publications include essays on female kleptomania and 19th-century French medical photography. She is currently at work on an art world memoir.

Session 4A: How Do I Get Hired?

Moderator: Petter Kolm
Before his role as a Professor at the Courant Institute of Mathematical Sciences, New York University, Petter (2000, Ph.D. Mathematics) worked at Goldman Sachs where his responsibilities included developing investment strategies. Petter has coauthored many articles and books on quantitative finance, serves on several editorial boards for academic journals, professional associations, and company advisory boards. He also holds an M.Phil. in Applied Mathematics from the Royal Institute of Technology, and an M.S. in Mathematics from ETH Zurich.
Panelists:

Carmen Manoyan
Carmen Manoyan (Yale SOM 1998), has over 20 years of experience in credit analysis, having worked at a number of firms on Wall Street. She is currently a buy-side analyst managing a $7bn bond portfolio comprised of sovereign and financial institutions credits at Aflac. Carmen has an MBA from Yale SOM, a Masters in Engineering Management from Dartmouth, and a Systems Engineer degree from Universidad Metropolitana, Venezuela.

Kristy Lamb
While at Yale, Kristy (2012 PhD - Genetics), helped run the mentoring program for Women in Science. As a postdoc at Weill Cornell Medical College, she acted as chair of ASBMB's graduate student and postdoc advocacy committee and began working with the New York Academy of Sciences Global STEM Alliance mentoring programs. After her postdoc, she transitioned to the administrative side of academia, first as STEM Career Advisor at St. John's University in Queens, NY. She is currently the Associate Director for Preprofessional Advising at NYU, where she oversees prehealth programming and services for their large prehealth student population. She is active in the 1stGenYale shared interest group of the Yale Alumni Association.

Session 4B: Finding Your Path in the Academy

Moderator: Jesse Zuba
Jesse Zuba is Associate Professor of English at Delaware State University. He is the author of The First Book: Twentieth-Century Poetic Careers in America (Princeton University Press, 2016) and co-editor of American Religious Poems (Library of America, 2006) with Harold Bloom, and he has presented his research at a variety of conferences and institutions. His writing on contemporary poetry has appeared in Twentieth-Century Literature, American Literature, and the Journal of Literature and Science, and “Raymond Carver and the Modern Career Imaginary” is forthcoming in the Journal of Modern Literature. “Pedagogies of Personhood: The Place of Lyric in Cultural Criminology,” which focuses on the work of Yusef Komunyakaa, was recently published in Poetry and Pedagogy across the Lifespan: Disciplines, Classrooms, Contexts, edited by Sandra Lee Kleppe and Angela Sorby (Palgrave Macmillan, 2018). His teaching interests include African American and American literature as well as such special topics as American noir, campus fiction, the transatlantic novel, and the modern urban imaginary. His current book project explores the possibilities that open up when career stories are put in question as fictions of development that come freighted with unexamined assumptions and elaborate interpretive agendas.

Michelle Connolly
Michelle P. Connolly is a Professor of the Practice of Economics in the Economics Department at Duke University. Professor Connolly’s research and teaching focus on international trade, telecommunications policy, media policy, education, growth, and development. Professor Connolly previously served as Chief Economist of the Federal Communications Commission in 2006-2007 and 2008-2009, and as an Economist in International Research for the Federal Reserve Bank of New York from 1996 to 1997. She graduated Phi Beta Kappa and Summa Cum
Laude from Yale University in 1990, and went on to earn her M.A. and M.Phil. in economics. Professor Connolly received her Ph.D. in economics from Yale University in 1996. Professor Connolly has testified before Congress and participated in White House Panels and Roundtables on Spectrum Issues and Trade Policy. In 2011, Professor Connolly received the Howard D. Johnson Trinity College Teaching Prize. In 2013, Professor Connolly was awarded a National Science Foundation Secure and Trustworthy Cyberspace Grant. She currently teaches Macroeconomics and Honors Research, and runs a Spectrum Policy Lab.

Sarah Cieglo
Sarah Cieglo earned her Ph.D. in History from Yale in 2013 with a focus on British and European religious history. As a graduate student, she began her community college career by teaching U.S. and Western history surveys at Naugatuck Valley Community College (CT). In 2011, she started a tenure-track position at Manchester Community College (CT) and is currently Associate Professor of History. At Manchester, she teaches World Civilization I and II and has recently started teaching a few courses online. She is also the Program Coordinator for the Liberal Arts & Science degree programs at Manchester Community College.

Mary Ann Carolan
Mary Ann McDonald Carolan is Professor (and former chair) of Modern Languages & Literatures and Director of the Italian Studies program at Fairfield University. This semester she is the Tiro a Segno Visiting Professor of Italian American Studies at New York University. Prof. Carolan has published on a variety of Italian authors and directors, and has presented her research at colleges and universities throughout the United States as well as abroad. She is the author of The Transatlantic Gaze: Italian Cinema, American Film (State University of New York Press, 2014) which documents the sustained and profound artistic impact of Italian cinema upon filmmakers in the United States from the postwar period to the new millennium. Prof. Carolan’s current book-length project, Orienting Italy: China through the Lens of Italian Filmmakers, examines the ways in which Italian directors have employed documentary, historical fiction, and fictional narratives to represent China and its people both at home and abroad in Italy.

Françoise Hamlin
Françoise Hamlin is an Associate Professor of History and Africana Studies at Brown University. She earned her doctorate in African American Studies and American Studies at Yale University, her Masters from the University of London, and her B.A. from the University of Essex (both in United States Studies). Hamlin is the author of Crossroads at Clarksdale: The Black Freedom Struggle in the Mississippi Delta after World War II (University of North Carolina Press, 2012), winner of the 2012 Berkshire Conference of Women Historians Book Prize and the 2013 Lillian Smith Book Award. These Truly Are the Brave: An Anthology of African American Writings on Citizenship and War is a co-edited anthology published by the University of Florida Press in 2015. It was a finalist for the QBR 2016 Wheatley Book Award in Nonfiction, and was republished in paperback in 2018. Hamlin’s new research focuses on young people, trauma, and activism. Her most notable fellowships and awards include: The C. Vann
Woodward Dissertation Prize; the Du Bois-Mandela-Rodney Fellowship at the University of Michigan; the Charles Warren Center Fellowship at Harvard University; a Woodrow Wilson National Fellowship; and the Frederick Burkhardt Residential Fellowship from the American Council of Learned Societies. In addition, she has won major mentoring and teaching awards at Brown University.

**Session 4C: Reinventing Yourself:**

**Kemal Ciliz**

M. Kemal Ciliz received his Ph.D. in electrical engineering from Syracuse University, NY in 1990 and his M.A. degree in international and development economics from Yale University in 1994. He did his post-doctoral research at UC Berkeley and Yale, between 1993-1994. Since 1992, he has been with Bogazici University (BU), Istanbul, Turkey, where he is currently a Professor. Since 1995, he has been an active entrepreneur in the IT and Telecom sector, and was the founder/co-founder of various IT companies. Dr. Ciliz is also an angel investor with investments in companies focusing on Digital Marketing, Social Media and Machine Learning, in the USA and Turkey. He still teaches and does research on AI/Artificial Neural Networks, Network Security at Bogazici University and is an invited speaker for many events and organizations in the IT sector. He serves on the board of various civil service organizations in Turkey, he is a board member of Yale's GSAA and a volunteer agent for Yale's Graduate School Alumni Fund.

In 2018, he was awarded a Life Time Achievement Award from the two national civil service organizations in Turkey (TBD and TUBISAD) for his dedication and public service to the Turkish Information and Technology Sector. He is a member of the engineering honor societies Eta Kappa Nu, Tau Beta Pi and a senior member of IEEE.

**Morgan Swan**

Morgan Swan has served as the Special Collections Education and Outreach Librarian at Dartmouth College for the last seven years. His duties include teaching over a hundred one-shot sessions in Rauner Special Collections Library every year, supervising the Reader Services department, directing the special collections fellowship program, and coordinating outreach efforts via public programming and social media. Before arriving at Dartmouth, he worked at the Beinecke Rare Book & Manuscript Library at Yale University for nearly five years. Morgan has a Ph.D. in English Literature from Yale and a Master’s in Library and Information Science from the University of Wisconsin-Milwaukee.

**Elissa Greenwald**

Elissa Greenwald received her B.A. and Ph.D. from Yale in English Literature. She recently retired after teaching at the high school and college levels as well as working in the non-profit
sector at a grant-making institution and as the supervisor of a nationwide survey of student writing.

Chris Bakes
Chris (2014 MC) works with Facebook Artificial Intelligence Research (FAIR), recruiting research scientists from CS Ph.D. programs globally. Prior to his work in the AI space, he worked as an admissions officer at Yale and Columbia Universities, managing recruitment in South America, and South and East Asia.
