A Message from Dean Cooley

---

**Copied to:** DGSs, Registrars

**In this message:** Q&A and slides from 6/11 town hall

June 12, 2020

Dear graduate students,

I hope yesterday's town hall with Stephanie Spangler, Madeline Wilson, Ann Kuhlman, and Tony Koleske answered many of your questions about returning to campus. Thank you very much to those of you who were able to join us for your time and participation.

Our briefings were largely driven by your questions submitted in advance, and from the previous town hall on May 28. [Here is a pdf of the question and answer transcript from the session.](#)

[Madeline Wilson kindly provided a pdf of the slides she used during her talk.](#) It contains the latest information we have about testing and contact tracing. The pdf will also be posted on the GSAS website.

Questions unanswered in the session will be researched and answered in another message with an updated FAQ.

As ever, please look after yourselves and your neighbors. You are always welcome to contact my office with questions or concerns of any sort.

With best wishes for your health,

Lynn Cooley

Dean, Graduate School of Arts and Sciences

C.N.H. Long Professor of Genetics

Professor of Cell Biology and of Molecular, Cellular & Developmental Biology
